## The Cruise Dialysis Difference

For individuals who require dialysis, cruises offering haemodialysis onboard ensure you can enjoy a relaxing cruise with your loved ones regardless of your medical condition.

This is a fantastic way for dialysis patients to visit some of the most beautiful and exotic destinations in the World and experience the luxurious splendour of some of the seas' most celebrated cruise ships.

The dialysis unit onboard a cruise ship has all of the essentials you are familiar with – experienced, fully trained medical professionals including a Nephrologist, Nurses, beds and dialysis machines.

When you are at home, dialysis usually takes the form of making your way to hospital, either by car or hospital transport, dialysing and then making your way home again. This whole

process can be exhausting, three times a week, so isn't it time you experienced dialysis in a convenient, new, and exciting place where no travel is required to the dialysis unit?

Dialysis onboard a cruise ship is so easy. It's a quick walk to the dialysis unit and then as soon as your dialysis has finished, you are back on holiday, free to enjoy the wonderful facilities your cruise ship has to offer or take a shore excursion or explore independently somewhere you have always wanted to visit.

On most ships dialysis is arranged around the ports of call as far as possible leaving you time to explore or just enjoy your time relaxing onboard.

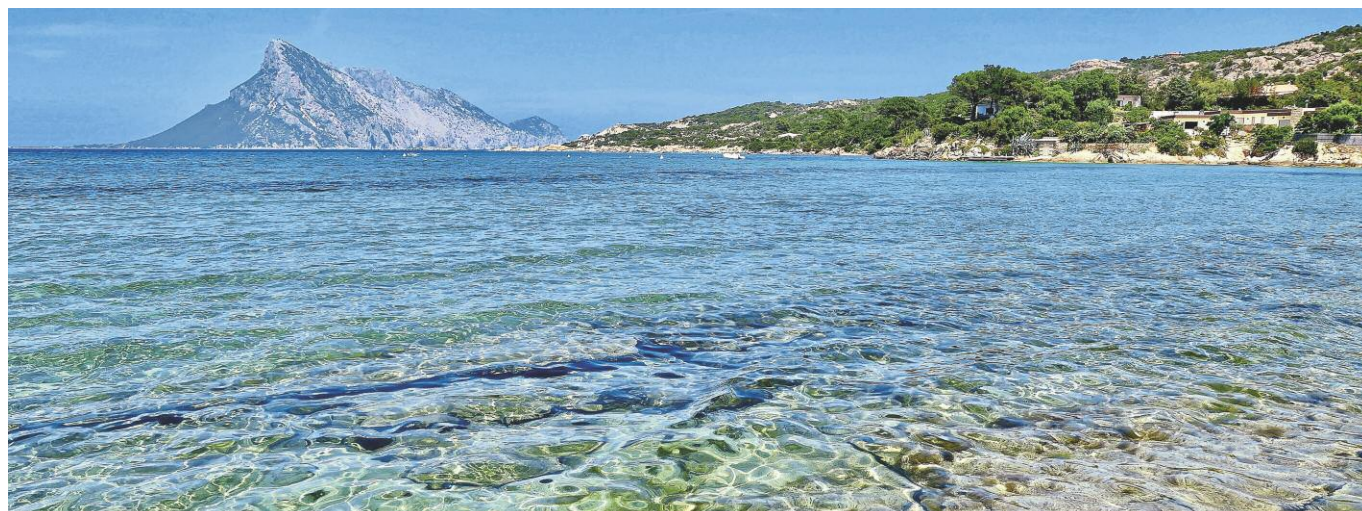

The staffing ratios exceed any land-based units with one Registered Nurse to two patients and personalised visits

from the onboard Nephrologist during every dialysis session.

A wide variety of food is available almost anytime on cruise ships. Keep your kidney diet in mind while cruising. Ask the servers onboard about different meal options, such as vegetarian dishes or what types of protein-enriched foods they offer.

Book and travel in confidence – in the hands of experienced, fully trained medical professionals. To ensure optimum comfort, the on-board dialysis treatment is designed to mirror your land-based unit. Your requirements are always taken into consideration and strictly adhered to.

Each ship takes between only 4 and 12 patients per cruise therefore we suggest booking as early as possible, to avoid disappointment.

# Putting You and Your Dialysis Onboard First

The team at Cruise Dialysis are specialist dialysis co-ordinators who put you and your dialysis needs first. As well as arranging your dialysis onboard we also take care of your cruise booking, flights and transfers, ensuring your holiday arrangements are made as smoothly as possible. We have many clients who book with us year after year and we are very proud of the service we offer. Our in-depth knowledge of cruising ensures we are well equipped to discuss all cruise, dialysis and accessibility options with you and we are always happy to answer any questions you may have. We love talking about cruising!

## Wheelchair Accessible Cabins

Wheelchair accessible cabins are available onboard the Ambience, Celebrity & Royal Caribbean ships. Please advise us of your requirements at the time of booking.

- **Availability of wheelchair accessible cabins is very limited so we advise you to book as soon as possible to avoid disappointment.**

## Travel Insurance

It is a requirement that you hold full comprehensive travel insurance cover that is valid for the entire duration of your cruise and provides health cover for Covid-19, all pre-existing medical conditions and the cost of medical repatriations. To discuss your travel insurance requirements, you may wish to contact the following companies or alternatively use a company of your own choice. The following companies are familiar with haemodialysis and offer insurance to cover pre-existing medical conditions.

## Passports & Visa requirements

Your specific passport and visa requirements, along with any other immigration requirements, are your responsibility and you should confirm this with the relevant Embassies and/or Consulates. Neither we, nor the cruise line, accept any responsibility if you cannot travel because you have not complied with any passport, visa or immigration requirements.

- **It is very important that you check [www.visacentral.co.uk](http://www.visacentral.co.uk) for current visa information as regulations can change.**
- **If you wish to join a shore excursion organised by the ship you may be covered by a group visa, please contact us for further details (applies to UK citizens only).**

## Your Accommodation

Prior to your cruise we will obtain medical documentation from your dialysis unit so the onboard dialysis team is aware of your dialysis treatment requirements leaving you free to just enjoy your cruise. On most ships dialysis is arranged around the ports of call leaving you time to explore or just enjoy your time relaxing aboard.

## How Much Does Dialysis Cost Onboard A Ship?

The cost of the dialysis for each cruise is shown next to each itinerary throughout this brochure. The dialysis costs shown include the service charge/administration fee as explained below.

## What is the Service Charge/Administration Fee?

The provision of haemodialysis onboard cruise ships incurs various costs including the logistics involved in transporting the equipment and staff to the ship, setting up the dialysis unit onboard, the cost of providing the accommodation for the dialysis team and dialysis unit onboard the ship and the extensive medical liability insurance required. Additional costs include collating and processing the patient's medical documentation, liaison with the patient's dialysis unit and the onboard dialysis team's review of the medical records. To contribute towards these costs there is a Service Charge/Administration Fee charged to the patient. This Service Charge is payable at the same time as your cruise deposit. The Service Charge is non-refundable under any circumstance except if we were to cancel your cruise then the Service Charge will be carried forward to a future cruise.

## Can I get any help towards the cost of dialysis onboard a ship?

### For Residents of England and Wales:

If the majority of ports visited during your cruise are within the European Economic Area (EEA) then you will be reimbursed the amount of the National Tariff which we understand to be approximately £150 per dialysis session – your Holiday Dialysis Co-ordinator at your Dialysis Unit will advise you of the exact amount. For patients dialysing in Wales please ask your Holiday Co-ordinator to contact WHSSC.

### For Residents of Scotland:

Your dialysis unit may meet the cost of your dialysis sessions in part or in full, please check with your Holiday Dialysis Co-ordinator.

### For Residents of Northern Ireland:

You will be reimbursed up to the equivalent cost of dialysis in your 'home' unit, please check with your Holiday Dialysis Co-ordinator.

### For Southern Ireland:

Please check with your Holiday Dialysis Co-ordinator or your private medical insurance.

### For Overseas Residents:

Please check with your Dialysis Unit.

## Apply for a Grant

Many patients apply to Kidney Care UK (previously British Kidney Patient Association) for a grant of £1000 towards the cost of their cruise. To apply for a grant please visit the Kidney Care UK website [www.kidneycareuk.org](http://www.kidneycareuk.org) or contact a member of your kidney care team. If the staff in your dialysis unit are unable to help, please call the main Kidney Care UK telephone number: 01420 541424 or email [info@kidneycareuk.org](mailto:info@kidneycareuk.org). Please note that if a grant is agreed Kidney Care UK will contribute towards the cost of your cruise, but not the cost of dialysis onboard. Grants are subject to an application criteria and cannot be guaranteed. Please ensure you apply for your grant before your final balance due date as grants can only be paid towards an outstanding balance.

# CRUISE WITH CONFIDENCE

"Cruise Dialysis was discovered on the internet. My first impression of Lisa Parnell encouraged me to sign up for a cruise. Naturally there were concerns with trusting one's health with an unknown dialysis team. They were quickly overcome when meeting the Head Nurse, a dedicated nephrologist and team of nurses. They were all accomplished professionals and friendly as well.

Two examples of why they are so good: their concerns about individual patients and willingness to be flexible in scheduling. Most importantly sessions were worked around ports so that cruisers had maximum access to shore activities. Additionally, they made efforts to know their patients, their preferences, and alter treatment times with passenger preferences in mind. There will be more cruises in my future with Ambassador Cruise Lines and their dialysis team. My family is confident that my health needs will be in good hands."

**Mr S Martin**

"I'd like to thank you for the wonderful service you provide for dialysis patients. The administration before the cruise was efficient and the care on ship superlative. I was very impressed with the clinical team and felt really confident with their level of expertise and experience. The dialysis sessions ran smoothly and contributed to a relaxing and reinvigorating holiday. We look forward to joining you for another cruise in the near future."

**Mr A Westlake**

**"THE CRUISE DIALYSIS LADIES."**

"This is my review of the German Market cruise last week (December), I really enjoyed it, met a lot of friendly people, food was good, nice warm cabin, good entertainment, safe parking while away and the dialysis was first class, very caring staff and a special mention to the Charge Nurse and Lisa, pleasure to meet them, they made it all go smoothly, I would do it again probably in warmer weather, but for a first cruise, loved it and would recommend to others."

**Mr P Salmons**

"I just wanted to say how great the cruise was. The facilities on board were above and beyond what Mark and I were expecting. Nothing was too much trouble for the crew members.

As for the dialysis, well what can I say? Lisa; the Charge Nurse and his team were amazing! The care they gave to all the patients was fantastic – they all made us feel special and really looked after us.

I have to admit I was pretty nervous about dialysing on a boat with strange people but about 10 minutes after meeting the team it was as if we'd been friends forever! The welcome speech given by Lisa and the Charge Nurse really put everyone at ease and it was a great opportunity to ask any questions.

I would say to anyone who feels like they can't go on holiday because of being on dialysis to just get in touch with Cruise Dialysis and see the world open up again.

We are already planning next year's holiday. I think we're hooked now!! We'll see you again soon."

**Mrs K Fountain**

"Apologies for a very overdue message – an extremely busy spell for me with a new job starting and moving house – but we both wanted to say a huge thank you for making our time on board absolutely fantastic. We really appreciate the hard work and care put into making our trip so special, and many thanks too to all the team (not just for adopting me!).

We hope to come back sometime in the future."

**Miss A Coleman-Harvey**

"Just to say once again, thank you for the excellent organisation of our recent cruise. It went like a dream. My mum is 79 years old and has wanted to go on a cruise for many years. When she became ill and needed kidney dialysis (haemodialysis) we thought she would never fulfill her dream.

I then discovered Cruise Dialysis, where kidney patients have their usual dialysis, on board ship, whilst on their holiday cruise. We looked at cruises offering dialysis at sea, and when we found the right one we wanted we booked it. Lisa at Cruise Dialysis was so helpful every step of the way, liaising with mum's dialysis unit at home and helping us through the process.

The cruise on Ambience, one of Ambassador's two ships, was fantastic. The ship is beautiful, the staff so lovely, and the dialysis team were absolutely wonderful. Mum was very much looked after throughout the whole 15 night cruise. She even danced several times, something she hasn't felt well enough to do in years. A huge thank you to all. Now she wants to go again!"

**Mrs D Shellcock**

"Just a belated note to say thank you and your staff for making the cruise so enjoyable. The treatment and attention were first class, and I would certainly recommend to anyone thinking of Cruising.

As a Widower, Dialysis patient, and first time Cruiser I was very apprehensive about booking a cruise. From the outset Lisa was extremely helpful and made the whole process easy, alleviating many of my concerns. The paperwork was very easy to follow and my dialysis unit very helpful in ensuring all tests etc were completed. Once on board we met the Charge Nurse and his team.

The Charge Nurse's enthusiasm for dialysis was remarkable explaining every detail with great clarity. The treatment was as good as any private hospital. Being single status was not an issue as I met several friendly people including the nursing staff (on their day off) for dining and in the bar. Any Dialysis patient out there considering a cruise – take the plunge – I can thoroughly recommend it."

**Mr G Curtis**
