PUTTING YOU & YOUR DIALYSIS FIRST

The team at Cruise Dialysis are specialist dialysis coordinators dedicated to putting you and your treatment needs first. Alongside arranging your onboard dialysis, we will also organise your cruise booking, flights and transfers (if required), ensuring your entire journey is as seamless as possible. Our extensive knowledge means we're well placed to discuss all cruise, dialysis and accessibility options with you.

Each cruise features a dedicated onboard dialysis unit where your treatments will take place according to your dialysis prescription. The onboard dialysis team will look after you throughout your holiday and are available 24 hours a day.

YOUR ACCOMMODATION

Your cabin onboard is your personal haven – somewhere to unwind after a wonderful day ashore or a relaxing day at sea. All cabins are en suite and offer the comforts you'd expect from your luxury floating hotel. Choose from an interior cabin, an ocean view cabin,

or one with your own private balcony. Or, if you'd like to indulge a little more, you can opt for a spacious suite. Whichever category you select, every cabin offers an impressive range of amenities and thoughtful touches to make your stay truly comfortable.

WHEELCHAIR ACCESSIBLE CABINS

Wheelchair accessible cabins are available on all ships featured in this brochure and are specially adapted for guests with reduced mobility. As availability is very limited, we recommend booking as early as possible if you require one of these cabins.

Please note that at tender (anchorage) ports, going ashore requires a certain level of mobility to manage the steps to the tender platform and to board and disembark the tender safely. For this reason, guests with restricted mobility may not be able to go ashore at these ports for safety reasons.

DIALYSIS COSTS

The dialysis cost shown beside each itinerary is the total price for the dialysis for the full duration of the cruise and includes the service/administration fee (see FAQ on page 18 for details). The cost is per patient. You may be eligible for partial reimbursement and could also apply for a grant towards the cost of the cruise. Once your dialysis payment has been made, we will provide a receipt for you to submit as needed.

DIALYSIS COSTS REIMBURSEMENTS

If you dialyse in **England or Wales** you will be entitled to reimbursement of between £150 and £170 per dialysis session if the majority of ports of call visited during your cruise are within the European Economic Area (EEA). If you dialyse in **Scotland** your dialysis unit may meet the cost of your dialysis

in full or in part. If you dialyse in **Northern Ireland** you will be reimbursed up to the equivalent cost in your home unit. If you dialyse in **Southern Ireland** please check with your dialysis unit or private medical insurance. If you dialyse **outside of the UK** please check with your dialysis unit or your insurance provider.

KIDNEY CARE UK GRANTS

Patients on a low income may apply to Kidney Care UK for a grant of up to £750 towards the cost of a short cruise. Grants are subject to an application criteria and cannot be guaranteed. When completing the grant application form you will be asked to give details about your financial circumstances. For more information visit the Kidney Care UK website www.kidneycareuk.org

or contact a member of your kidney care team. If the staff in your dialysis unit are unable to help, please contact Kidney Care UK on 01420 541424 or email info@kidneycareuk.org Please note that if a grant is agreed Kidney Care UK will contribute towards the cost of your cruise, but not the cost of dialysis onboard. Please ensure you apply for the grant before you book your cruise.

TRAVEL INSURANCE

It is a requirement that you hold full comprehensive travel insurance cover that is valid for the entire duration of your holiday and provides health cover for Covid-19, all pre-existing medical conditions and the cost of medical repatriation. By law, we cannot advise

on insurance or recommend any insurer or financial services provider. You may wish to contact one of the companies shown below who are familiar with haemodialysis but please note we are not endorsing them as exclusive providers of cover.

How much does the dialysis cost?

The total cost of the dialysis and service charge/administration fee is shown next to each individual cruise itinerary within this brochure.

What is the Service Charge/Administration Fee?

The provision of haemodialysis onboard cruise ships incurs various costs including the logistics involved in transporting the equipment and staff to the ship, setting up the dialysis unit onboard, the cost of providing the accommodation for the dialysis team and the dialysis unit onboard the ship and the medical liability insurance required. Additional costs include collating and processing the patients medical documentation, liaison with the patients dialysis unit and the onboard dialysis team's review of the medical records. To contribute towards these costs there is a Service Charge/Administration Fee charged to the patient. This Service Charge is payable at the same time as your cruise deposit and is non-refundable under any circumstance except if we were to cancel your cruise then the Service Charge will be carried forward to a future cruise.

Having a sea view during dialysis was terrific, especially as I often struggle with claustrophobia. Being able to look out at the open water and feel connected to nature made the experience far more relaxing and comfortable. The caring team from Cruise Dialysis provided constant reassurance and encouragement. Their support truly enhanced my confidence, allowing me to feel at ease and fully enjoy the journey.

Mr T J

We cruised seven to nine months yearly until my husband started dialysis. This was devastating to him to lose his lifestyle and deal with the health issues. I finally found Cruise Dialysis and immediately booked 32 days onboard Ambassador. It was a pleasure working with Lisa to organize/book the cruises. The dialysis team are excellent and do everything possible to ensure the patient enjoys their cruise. My husband feels like he has recaptured part of his normal life and is already looking forward to another cruise in a few months. I would like to thank you for your compassion and commitment to renal patients.

Mrs D D

Very well organised trip from start to finish. Welcome meeting very helpful and also the chance to meet the team and other patients receiving dialysis. Times arranged very well. All the staff very welcoming and kind and wouldn't hesitate to use again in the future. Would highly recommend to future passengers.

Mr T P

Far exceeded my expectations. All staff highly professional, just as importantly a very happy caring team. I would definitely use Cruise Dialysis again.

Mr R H

I have been using Cruise Dialysis for the past three years because of the professional and caring treatment I have received. I know that I can book a holiday with the confidence that I am in good hands.

Mrs P F

I found the dialysis unit onboard to be just as professional and clean as the one I use at home, which really impressed me. Having an outside view with sunlight and the sea made a big difference – it helped the time pass more easily, although I have nothing against inside units. I would absolutely recommend cruising with dialysis, as the standard of care feels just as good, if not better, than at home. Even though you're away from your usual hospital, you quickly realise the team onboard cope just as well and provide excellent support throughout.

Mr A C

One word - fantastic! The nurses, the suite and the treatment! All I can say is this is the way to holiday if you need to have dialysis. The entire team are dedicated to caring for their patients and do so with a happy face and a kind word. Its all very relaxing and doesn't impact on the enjoyment of the holiday.
